

Abstract:

The aim of this bachelor thesis is to create an annotated translation of selected chapters from the electronic brochure named *VEGAN – die Gesundeste Ernährung und ihre Auswirkungen auf Klima und Umwelt, Tier- und Menschenrechte*, available at www.provegan.info. The commentary consists of translation analysis according to Christiane Nord, description of the chosen translation method, translation problems and their solution and translation shifts.

Key words:

translation, annotated translation, translation analysis, translation shifts, translation problem, veganism, healthy diet
