

## **ABSTRACT**

The Diploma thesis dealing with the relation between a founder and a director of pre-school education management in the Pilsen region, aims to evaluate a system of kindergartens, which are independent contributory organizations and whose founder is a municipality. To find out what competences the founder has in relation to a kindergarten, in which spheres the founder cooperates with a director. How the founder evaluates director's work, if he does control activities and if he works with outputs of the control bodies, especially the Czech School Inspectorate. To find out what the competences of a kindergarten director are, whether he is supported by the founder or not. To find out how the cooperation between the founders and the directors of kindergartens is evaluated by inspectors of the Czech School Inspectorate who are specialized in pre-primary education and work in the Pilsen Inspectorate of the ČSI.

The theoretical part of the thesis is based on the specialized literature, legal regulations and strategic documents concerning kindergartens, their founders and the Czech School Inspectorate in the field of pre-primary education, which were valid at the time of this diploma thesis.

The practical part is drawn up on the basis of the results of the survey carried out by the directors of kindergartens, by their founders and inspectors of the Czech School Inspectorate, who are specialized in the field of pre-primary education.
