

The main aim of the Diploma Theses is to prepare, verify in practice and evaluate museum educational programme for pupils from 12 to 18 (junior schools and secondary schools) which is devoted to the changes in schooling in 20th century. The aim is to introduce to pupils historical facts by the means of three educational programmes and interactive elements in the exhibition. Pupils work with topics covering World War II, 50s and so called normalization period. Throughout the educational process they will use period realia from the above mentioned periods, such as schoolbooks, educational boards and educational aids from the collection of Comenius National Pedagogical Museum and Library in Prague.
