

ABSTRACT

- Title:** Fair play and the rules of sport
- Objectives:** The main aim of this work is to define the concept of fair play in terms of formalism, and its detailed explanation, explanation of related concepts while using examples from practice, and subsequent critique of formalism in comparison with other concepts of fair play.
- Methods:** The methods of compilation, analysis and synthesis were used. We used the compilation method to summarize the theme based on available literature. The method of analysis was used to understand concepts closely related to fair play as formalism and the method of synthesis to understand the whole theme through the synthesis of the explained parts. Furthermore, we used the method of comparison, for comparing fair play as formalism with other concepts of fair play.
- Results:** The theme of fair play and its relationship to rules was explained. We identified some limits of fair play as formalism, based on comparison with other concepts of fair play.
- Keywords:** Fair play, rules, virtues, cases of fair play conduct, education
