

THE TRANSFORMATION OF THE HEALTH SERVICE II. PHASE

Student: Herynková, L.

Tutor: Kral, K.

Dept. of Social and Clinical Pharmacy, Faculty of Pharmacy in Hradec Kralove, Charles University in Prague, Czech Republic

Preface:

The transformation of the health service in the Czech Republic that began in 1989 has not been analysed yet in any of the present summary work except the I. phase, which partly covers the period from 1989 to 1997.

Objective:

The aim of this work is the analysis of the II. phase of the transformation beginning at 1998. The main attention is focused on the health service conception, funding, management and the changes in the structure of the health service facilities.

Methods:

The research and analysis of the published documents concerning given subject, analytical articles, which were published in expert press and health care laws.

Results:

The diploma paper is unique in successful assembly and analysis of all of health service conceptions that were proposed by consecutive Ministers of Health. Other objectives were processed only on the survey level without any deep analyse.

Summary:

This diploma paper can be used as an initial source for more profound analysis of the II. phase of the transformation of the health service, especially for the II. phase of the transformation of pharmacy.
