Date of defence : 09.09.2019 **Venue of defence :** Praha

Course of defence: After a 15-minute presentation of the bachelor thesis followed a general discussion. Committee discussed the intuition for the causal relationship between ethnic diversity and rate of economic growth in countries of former Yugoslavia. The construction of ethnic fractionalization index was discussed. The committee appreciated that the student has had a good knowledge of countries of former Yugoslavia and also of the relevant literature. The committee discussed severe issues in econometric identification of ethnic heterogeneity on political, institutional and social set up of countries in former Yugoslavia.
