

Expressions of religious feeling at the Catholic Secondary School students

This thesis presents the theme of religious feeling at the young people, in this case the Catholic Secondary School students.

In the first part the author gives the definition of certain expressions, like: religion, religious feeling (religiosity), sacredness, spirituality, new religiosity.

In the second part she briefly outlines expressions of religious feeling at young people of the Czech Republic and the trends of its development in the last ten years.

In the third part the author compiles the results of the research made at the Catholic secondary School students.

At the end she compares the results of the research with the situation of young people in the Czech republic and the quantity and quality in which the expressions of religious feeling at the Catholic School students are conforming to the cristian faith teaching.
