

Abstract: The diploma thesis deals with so-called St Emmeram's Prayer preserved in Old High German and Old Church Slavonic manuscript versions. It summarises the up-to-date state of research. In the analytical part, on the ground of the structure of an Old High German confession formula a text analysis is carried out for both versions of the prayer, as well as for another Latin confession formula recorded in the b 9 manuscript. Old High German / Old Church Slavonic index is attached to the thesis.
