

Abstract (in English)

The bachelor thesis topic is history of the State Institute of Educational for the Home Industry. Historical research is dealing with the period of the department founding, the period of its activity during the 20th century as well as its ending and starting of a new school which is active up to the present days. The state department development is described in the context of time, political situation and society development. The sources of the research come from the extant documentation, historical sources and personal evidence from contemporary witnesses. As a part of the thesis there are also profiles of some artists-teachers.
