

Annotation

Bachelor's thesis on the topic „Ideal and real teacher of nursing by the eyes of a Nursing College student“ is the work theoretically experimental.

In its theoretical part proposes approaching to specifics of nursing educational system, Nursing College students and their vocational teachers. It tries to characterize the vocational teacher's personality on the strength of scientific characteristics and research dealing with the study of personality which is applied to specifics of vocational teacher's profession.

Experimental part of the thesis is centred on the characteristic of an ideal and real teacher of nursing on the strength of information received from a questionnaire filled in by Nursing College students.

We used a questionnaire „ Interactive style of teacher“ for our research which was adapted on the strength of work T. Wubbelse and J. Levy by J. Mareš and P. Gavora.
