Datum obhajoby/ date of defense: 9. 10. 2019

Průběh obhajoby / course of dissertation defense:

Kateřina Jeřábková gave an exceptionally good presentation of her thesis work. The thesis itself is very good and represents a very good level of scientific excellence. Her response to questions was good. She recognized the limitations of her work and discussed future perspectives. In summary, the jury recommends this work for a PhD.
