ABSTRACT

The subject of the work is the integration of elements of environmental education into the education of music education at the 1st stage of primary school through the creation of Jar. Uhlíř and Zd. Svěrák. The aim of the theoretical part of the work is to map the basic principles and thematic areas of environmental education at the 1st stage of primary school and to analyze selected works of Jar. Uhlíř and Zd. Svěrák in terms of environmental elements. The practical part is focused on the integration of Ev topics in their creation into Hv classes through project teaching and on the actual implementation of this teaching in the form of experimental teaching.
