

## **Abstract**

**Title:** Organization and management of Regional Football Academies in the Czech Republic.

**Objectives:** The main goal for this thesis is to suggest possibilities for improvement and to secure management organization of Regional Football Academies in Czech Republic. Suggestion are taken from analysis of current mode of Regional Academies and from analysis of key atributs of most successful world's wide academy.

**Methods:** In this thesis have been used methods of qualitative researches. Those researches were taken from methods of interviewing two choosen members. These members were from Part of talent Youth and are connected with Regional Football Academies. Another used analyse was from secondary data. It contains basic information which were important for investigation of the main mesning for this thesis and a basic atributs how to lead an elite and succesfull academy e.g. compre to Regional Football Academies and also deliver some suggestion.

**Results:** The result from all analysis was that organization and management of Regional football academies in Czech Republic have some shortcomings. The main one is absence of a strategy plan to fulfil shortterm goals. Next important result is that the most important member is a maincoach who is also supply manager. The organization part missing a structure to split who is responsible for which part of management.

**Key words:** academies, football, organization, managemet
