

Abstract

- Title:** Comparasion of the results of athletics talent tests in years 2007 - 2016
- Objectives:** The objective of my thesis is to compare the results of athletics entrance talent tests to FTVS UK in years 2007 - 2016. In the researched group there are both - men and women applying for single-subject and double-subject forms of study, full - time and distance form of education.
- Methods:** The methodology of the thesis is focused on all candidates who applied for talent tests in 2007 - 2016 and achieved the minimal required score of 1 point.
- Results:** The results monitor efficiency of candidates in running disciplines over a period of ten years.
- Keywords:** athletics, testing, talent tests, motoric tests, 800 m women, 1500 m men, sprint, 100 m
