Application for Approval by UK FTVS Ethics Committee

of a research project, thesis, dissertation or seminar work involving human subjects

The title of a project: Case study of physiotherapy treatment of a patient with the diagnosis of ACL surgery

Project form: Bachelor thesis

Period of realization of the project: January 2020 - February 2020

Applicant: Al-Abaeje Mohammed –UK FTVS – physiotherapy department

Main researcher: Al-Abaeje Mohammed –UK FTVS – physiotherapy department

Workplace: Oblastní nemocnice Kladno

Supervisor (in case of student's work): doc. PaedDr. Dagmar Pavlů, CSc

Project description: the case of the physiotherapy treatment of a patient after ACL Ruptured, the aim is to improve the rehabilitation therapy and monitor the result of the therapy, all the methods that are used and based on the studying of the physiotherapy program at UK FTVS for three years.

Characteristic of the participants: One female 20 years old with diagnose of the ACL ruptured of the right knee

Ensuring safety within the research: there was no invasive method is used, the place that used to do the research is the ambulance rehabilitation of the physiotherapy department in the hospital of Kladno, all the rules of this department are followed, the communications between the researcher and the patient was happening during the presence of the supervisor Bc. Modlinger Tomáš with his instructions and the risk preventions. Risks of therapy and methods will not be higher than the commonly anticipated risks for this type of therapy.

Ethical aspects of the research: The collected data will be anonymized within one week after the end of working with the patient. I understand that anonymization means that the text does not use any item of information or combination of items that could lead to the identification of a person. I will be careful not to enable recognition of a person in the text of the thesis, especially within the anamnesis. After the text has been anonymized, any personal data still kept elsewhere will be deleted.

Photographs of the participant will be anonymized within one week after being taken by blurring the face, parts of the body or any characteristics that could lead to identification of the person. After anonymization any non-anonymized photographs will be deleted.

All collected data will be safely stored on a PC safeguarded by a keyword in a locked room, any data in paper form will be kept safely under lock and key in a locked room. The data will be processed, safely retained and published in an anonymous way in the bachelor thesis.

I shall ensure to the maximum extent possible that the research data will not be misused.

Informed Consent: attached

It is a duty of all participants of the research team to protect life, health, dignity, integrity, the right to self-determination, privacy and protection of the personal data of all research subjects, and to undertake all possible precautions. Responsibility for the protection of all research subjects lies on the researcher(s) and not on the research subjects themselves, even if they gave their consent to participation in the research. All participants of the research team must take into consideration ethical, legal and regulative norms and standards of research involving human subjects applicable not only in the Czech Republic but also internationally.

I confirm that this project description corresponds to the plan of the project and in case of any change, especially of the methods used in the project, I will inform the UK FTVS Ethics Committee, which may require a re-submission of the application form.
