

Abstract

The bachelor thesis concerns the current librarianship of the Russian Federation. The introduction briefly describes its history, development and legislative framework. The three national libraries of the Russian Federation, the Russian State Library, the Russian National Library and the B. N. Yeltsin Presidential Library, their history and current activities, as well as the newly established National Digital Library are characterized. The thesis further describes the Russian Library Chamber and explains the specifics of the bibliographic description. In the second part of the work, the library networks of the Krasnoyarsk and Stavropol regions are analysed and compared. The work formulates the specifics of libraries of the Russian Federation in the process of their transformation.
