

ABSTRACT

The Bachelor's thesis "Inclusive education from the perspective of management staff" focuses on the approach and methods of management to inclusive education in high school. The thesis is divided into a theoretical and a practical part.

The theoretical part examines the development of inclusive education in the Czech republic and the theoretical application of inclusive education in czech schools from the point of view of management. The practical part contains interviews with the management staff of schools where inclusive education has been implemented and an analysis of these interviews.
