

This project issues from theoretical grounds connected with educational consultant's work. The theoretical part demarcate basic group of problems at the basic school. This theoretical frame builds syllabus of educational consultant's work at the concrete basic school. Questionnaire for scholars, leaflet with informations for parents ate the parts of this project. In points, where is possible, the timetable of realisation was proposed. Theoretical part will seves as informative base for teachers. By the realisation of this project the cooperation of educational consultant, form master, teachers and headmaster is necessary.

The practical part is about blind girl integrated at the basic school.(material equipment,teachers, cooperation of the school and her family...)
