

Abstract

The piece „Activity of Dr. František Hofman in Media and Medial Practice“ is a biographic study of František Hofman. It disserts briefly on his personal life and thereafter concentrates on his career in media. This text offers a compact view of Hofman’s life to the reader although some of its components map less and the others more.

The core of the bachelor diploma project is Hofman’s activity in the press department of the Presidium of Council of Ministers. In the piece, this period of his life is described more contextually in respect to historic chains of events than the other periods. The context includes especially basic facts on political development in the area of current Czech Republic between years 1939 and 1941 and the presentation of the situation then in the area of legal press.

Based on these facts, the piece the role and the position of František Hofman, while it discovers some personal and other relationships between him, other clerks in protectorate and journalists. The author familiarizes reader especially with the affairs which were related directly to the execution of the Hofman’s function of the general editor of the press department and favorites the topic before the issues related to latter Hofman’s arrest and the causes which lead to his imprisonment.
