

# Abstract

Bachelor work Deník Nová doba v letech 1939-1945 - regionální list na Plzeňsku v období protektorátu (Journal New age during years 1939-1945 - Pilsen regional journal in the protectorate period) treat with changes of the Pilsens journal Nová doba during above defined period. The work is aimed not only on the form of the journal itself (number of pages, columns, price, articles origin, graphic layout and photographs and so on) but also on editorial staff and operations of the redaction that definitely had formed orientation of the journal content. The way Nová doba process information, is explained in the analysis of articles that refer to the selected events. Chapters that are devoted to the journal itself are preceded by brief characteristic of examined years 1939-1945 in Czech and Moravia with stress on Pilsen region and description of the medial praxis valid at the same time period. At the same time is described brief evolution of the journal Nová doba during the time before and after the protectorate.
