

Abstract

Title: Security and safety on stadiums during sports matches

Objectives: The aim of this bachelor's thesis is to describe the security measures at the Municipal Stadium in Opava, which are necessary for organizing a football match.

Methods: For a perfect and identical description of security measures, the form of an interview with the director of the club FC Slezský Opava was chosen and the subsequent use of the club's internal documents, which were also obtained by the club director.

Results: The result of the work is an exact copy of security measures and all the necessary documents that accompany every football match at the Municipal Stadium in Opava.

Keywords: safety, football, stadium, integrated rescue system, population protection.
