

Summary

THE HISTORY OF PHARMACIES IN THE SELECT REGION OF THE CITY KARVINÁ

Student: Nedobová Andrea

Tutor: Doc. PhDr. František Dohnal, Csc.

Social and Clinical Pharmacy Department, Pharmaceutical Faculty in Hradec Králové,

The Charles University in Prague, Czech Republic

Background: History and development of the pharmaceutical service in the city Karviná and Havířov from the beginning to the present date.

Aim: Map the history of pharmacies and pharmacists in the city Karviná a Havířov from the beginning to the present date.

Methods: Processing the historical written resources which were obtained from the Czech Pharmaceutical Museum in Kuks, State District Archive in Karviná, Museum in Český Těšín and the so far existing chronicles of some pharmacies. Talks with personal observers.

Results: The first pharmacy had been established in Karviná probably in 1837. Until 1918, there were three pharmacies in the city Karviná and on the territory of today city Havířov. In years 1918 to 1948, three pharmacies in the select region of the city Karviná and on the territory of today Havířov were opened. After 1948, the oldest pharmacies in Karviná were closed and the next pharmacies were established. After 1989, a number of pharmacies were privatized and there are currently 13 pharmacies in the city Karviná and 21 pharmacies in the city Havířov.

Conclusion: I succeeded in recording the chronological summary of the origin of pharmacies in this district even if it was often difficult to find the related data.
