

## Anotace

### Krakovec castle

This bachelor work brings a complex view of Krakovec castle. It summarises available literature, it is concerned with the history, description and analysis of the castle with accent to highly artistically made and authentic vaults from the end of 14. century, the time the castle was build. The craftsmen guild which was in the lead of the construction of the castle is one of the main questions of this work.

Krakovec castle is also presented as a castle with an extraordinary value in the frame of the Czech castle architecture development. It is a castle which stands on the line of transition from a castle to a new residential type – chateau.
