

Film Reception of the Mount Vesuvius Eruption and the Situation in the 1st Century AD

ABSTRACT

The main aim of my thesis named *Film Reception of the Mount Vesuvius Eruption and the Situation in the 1st Century AD* is to explore the historical accuracy of films covering this part of ancient history and their possible use during educational processes. Part of the work also sums up the current level of scientific knowledge on this topic. Text attachment as well as picture attachment can be found at the end of the work.
