

ABSTRACT

In the theoretical part, process and describe the development of urbanism with a focus on the city of Benešov, the differences between the city in the past and today and the depiction of urbanism in traditional and contemporary art.

In the didactic part conceptually prepare ways to introduce urbanism and bring it closer to children in preschool, out-of-school or school pedagogy - to try it out in practice.

In the practical part perform a drawing series on the topic of urban development of the city.
