

Table of annexes

Annex no. 1: An example of Margaret’s character’s Barry theme-card sheet and character sheet. The character sheet contains information about the player, the character, it’s relationships with other characters in the group (through help and hurt points) and other features. The character sheet is not included in the rest of the annexes. The theme cards sheet describes the characters power both from the non-mythical (logos) and the mythical (mythos) side. Each theme has a type, a name, a mystery in case of a mythos theme (that the players can decide to further investigate) or an identity in case of a logos theme. Mainly, each theme card consists of at least three “power tags” – phrases, that describe an ability which can be used in the game. A “weakness” tag can be used by MC to lower the number by invoking a weakness of the character:

The image displays four theme cards from the City of Mist game. Each card is a vertical rectangle with a light blue background and a dark grey bottom section containing the 'City of MIST' logo. The cards are arranged in a row. Each card has a title, a type, and a set of icons (attention, fade, crack). Below the icons is a 'MYSTERY / IDENTITY' section with a question. Below that is a 'POWER TAGS' section with a list of tags and their corresponding letters. At the bottom is a 'WEAKNESS TAGS' section with a list of tags and their corresponding letters.
