

ANOTATION

The bachelor thesis focused on the analysis of the formation and development of relations between the newly emerging Czechoslovakia and the Kingdom of Serbs, Croats and Slovenes in the years 1918-1921 in the context of a broader reconstruction of Central Europe after the end of World War I. This will be a work focused on the history of international relations. The author will try to define the basic parameters of the foreign policy doctrine of both states and, against the background of these concepts, to describe and evaluate the importance and direction of mutual relations.
