

CHARLES UNIVERSITY
FACULTY OF PHARMACY IN HRADEC KRALOVE
Department: Department of Biological and Medical Sciences

Master's degree program in Pharmacy
Mentor's evaluation of Master's thesis

Student's name: Hyojung Park

Thesis mentor's name: Assoc. Prof. PharmDr. Miloslav Hronek, Ph.D.

Year of the thesis defense: 2022

Title of the thesis:

NUTRITIONAL FACTORS IN ETIOPATHOGENESIS OF ALZHEIMER'S DISEASE

The topic of the thesis was chosen from the list of topics in the department

Working with literature very good.

Language skills excellent.

Student invention very good.

The student was working independently with mentor help.

Problems and issues were solved independently with mentor help.

Working in the lab was not available, literature review.

Interpretation of the results not available, literature review.

Processing of the thesis was correct with mentor corrections.

Graphical processing of the thesis good.

I recommend Diploma thesis for the recognition as Rigorous thesis .

Mentor's comments both on the thesis and the student's approach:

The DT text was processed by the graduate student independently.

The student sent the DT to her mentor during the holidays on the day when the deadline for uploading in the SIS was set, thus it was not possible to insert the DT at the required time, to complete the addition of important parts such as a draft of a recommended diet with defined recommended daily doses as prevention of Alzheimer's disease, supplement with clear tables and graphs as overviews that belong to the research DT.

At the same time, it was necessary to correct the citations and re-upload the DT in the SIS. From the above, I overall grade DT as good.

Evaluation of Master's thesis: good

Recommendations for the thesis defense: recommended

In Hradec Kralove 29th August 2022
