ABSTRACT

The Bachelor thesis “Portfolio of Professional Development” is devoted to professional development in eight chapters. The work touches on the personality of the tutor, the activities of the school's retinue, the qualifications and competencies of the tutor, the workplace and the university studies. The next chapter contains a professional analysis of the tutor, the following, a case study of the school, written preparation for an hour and, at the end, a reflective reflection on her own studies, which helped the author to reflect on her own professional growth. One of the chapters is focused on the analysis of the book “School Discipline in Theory and Practice”, which fit into the concept of the whole work. It is all backed up by specialist literature, which is recorded in the final pages of the bachelor's thesis. There are also her personal opinions and attitudes.
