

## **Abstract**

**Title of the thesis:** Continuation of athletic careers of graduates of sports classes of a chosen school.

**Aims:** The main aim of the Bachelor's thesis is to identify the factors that may influence the early termination of an athletic career.

**Methods:** The thesis uses qualitative research in the form of an interview with the head of the sports classes of the selected school and quantitative research in the form of a questionnaire that was sent to the graduates of the sports classes of the selected school.

**Results:** The main reasons why graduates quit athletics are interests in other activities, injuries, the time commitment of athletics, transferring to high school, generally not enough time, and the breakup of a group.

**Keywords:** organized sport, education, physical education, primary school, athletics
