

Abstract

The aim of the diploma thesis is to create seven educational school walks in Kladno area, which can be used by first grade General Science and Natural History teachers. In the theoretical part, significant historical places in Kladno area are described and famous historical figures and personalities are mentioned. Fixing the topic in the Framework Educational Programme for Basic Education is included, as well as the theoretical worksheet making delimitation. School walks and worksheet templates should cover the educational dimension of Human and World, Human and Nature, Human and Society and, not least, Human and Health. Within the practical part, school walks will initially be made and subsequently implemented and reflected.
