

## **Summary**

**Title:** Predictors of successful study results of physiotherapy in the bachelor degree programme at FTVS UK.

**Supervisor:** Doc. PhDr. Jan Kocourek, CSc.

**Aim:** To find out whether it is possible to predict successful study results on the basis of information known at the moment of enrolment decision.

**Methods:** This thesis is a correlation-prediction study.

**Results:** There is a provable correlation between successful study results and secondary school predictors, whereas there is none between successful study results and entrance exam predictors.

**Keywords:** successful study results ratio, physiotherapy, predictors, entrance exams, secondary school study results.
