

Abstract

Title: Survey and questionnaire survey in the area of application of gymnastic terminology in university practice

Objectives: The goal of the diploma thesis was, through a questionnaire survey, whether gymnastic nomenclature is used in physical education practice at sports universities, to what extent and of what type.

Methods: In my work, I used the method of questionnaire survey.

Results: The survey showed that the gymnastics title is fully used at all public universities specializing in physical education and gymnastic sports.

Keywords: gymnastics, gymnastic terminology, universities, physical education terminology
