

7. Summary

Benedikt Ried in late Gothic architecture northwest Bohemia - Louny

Influence Benedikt Ried in northwest Bohemia be connected with general historical development those areas, in tight neighbourhood with German territory, receiving surrounding influence and one another with re-inflected. Personality Benedikta Rieda, late Gothic royal architect, nesting cover-up more interrogation beyond respond. At what all the time search satisfactory answerback. Be sure is, that contribution Benedikt Ried exceeds national limits and be connected with general central Europa architectural events.

Chief interrogation those work she should have be continuity among Benedikt Ried and cities Louny. Town Louny has unique archive material add course construction his church from scathing fire after disposition construction, purchase material and pay-roll worker participant with upon this construction. With certainty however it is impossible tell, whether all commentary we can add directly for construction Louny's church. So and personal action beyond that valuable archive information it is impossible Benedikt Ried acknowledge nor uproot like creator and of the main conceptual author. These interrogation yourself we have to lay for no doubt makings church st. Nicholas in Louny after pages architectural and artistic. Certainty have in determination foreman bricklayer those construction, whose know very from town amounts is eat master Paul from Pardubice until at construction Louny's church working on renewal cities Pardubic.

Northwest Bohemia with they can pride oneself on once more architectural construction, which has already sustainable continuity with Benedikt Ried thereby is skiving Ascension Maidens Mary in Most. Upon this church worked Ried probable pupil Jacob Heilmann from Scheinfurtu. Which first brought tenet turning vault his teacher to the Saxony.

Work is division to the chaps. Introduction forms survey and partial estimation literature respective with to architect Benedikt Ried and on the question of authorship and story church st. Nicholas in Louny. Next chapter is sight with apiece Benedikt Ried and recap known hypotheses and attempt at creation chronological

biographical schematics. They are here mentioned chief architectural works of principle character and their attempt. Brief history of cities Louny and description church of Louny. Next construction connection with royal architect, even if direct by the instrumentality of, is decanal church in Most. Following chapter with inscribe to this very construction. A very handlist with men Jakub Heilmann from Schweinfurt. Influence of Benedikt Ried in northwest Bohemia is title brief summary. Attempt at square up with interrogation authorship church of Louny and outline problem, that have stunting to clear determination architect.
