Abstract

This master's thesis focuses on framing of Ukrainian refugees in Czech TV news in connection with the refugee crisis caused by the war in Ukraine in 2022. The research was conducted on Události on Česká televize and Televizní noviny on televize Nova from the beginning of the war in Ukraine on February 24, 2022 to April 24, 2022 as well as from December 27, 2022 to February 24, 2023 as the one year from the start of the war. Quantitative content analysis was used as the research method allowing appropriate processing and analysis of a larger amount of texts. The aim of this thesis is to map the media coverage of refugees from Ukraine in the researched TV news programs through analysis.
