

My diploma work “Valdens and Unitas Fratrum“ deals with the first reformation in the world (Valdens) to a greater extent in the times when the Papal authority undertook crusades against Valdens. Valden reformation got a great response in the Hussite riots in the Czech Kingdom. It was Unitas Fratrum that reacted to its mission and teachings. This is why we can find some similarities between Valdens and Unitas Fratrum. Subsequently, the world reformation (Luther, Calvin) of the 16th century could be inspired by the preceding reformation movements and work on their assumptions.
