

In my dissertation, I am addressing analysis of special pedagogic needs of disabled children's families.. I am describing each single sphere connected to this problem in the theoretical part. That includes family, psychical and other needs of parents(as educators) as well as disabled children, special pedagogic and social needs. In the practical part, I address analysis of mentioned needs, whereas I am issuing two studies of families with disabled children. I am comparing work of vision therapists, professional support which family and child gets, and family surrounding.
