

Subject of diploma thesis is administration minder services for seniors. Aim of coming services is, among others, provide for seniors full-value life in their native environment. On the basis of peruse literature I present terms like age, senescence and communication. I point out communication specialities and techniques for choice groups of seniors. In practical parts I go out of own working experience in administration field minder services for seniors. In my diploma thesis I concentrate for the period between 2006 - 2008, when the legislation of administration minder services was changed.
