<i>Correct using citations. Correctly is number of citation in bracket behind the stop when you cite whole paragraph in front of the stop when you cite only one sentence. Literally cited text has to be in quotes (for example- page 3, first sentence and the same sentence is used on page 7 and in Abstract). Incorrect reference to citation in Abstract first sentence (should be [13] not [1]) and the quotes missing again.</i>

Comments and questions to answer:

nt should be examined only in underwear not in shorts. In the Photo 2 (page 26) patient has different shorts in the Photo 3 and therefore seems to be different day, situation and unequal conditions (the same problem is in Figure 3 and Figure 5). Differential consideration should be made on the part of physiotherapist especially according to informations from anamnesis and status praesens) not according to some literary source. are "nipples" not "nibbles" (pages 27 and 60). List of Abbreviation isn't compiled in alphabetical order.
