

# REPORT OF BACHELOR THESIS

Leadership's name:

Mgr. Klára Hojková

Student's name:

Sigve Pedersen

Title of diploma thesis name:

Physiotherapeutic treatment of patient after a distended medial collateral and anterior cruciate ligament of the knee

Goal of thesis:

Clinical study of patient after distension of knee ligaments

## 1. Volume:

* pages of text	104
* literature	17
* tables, graphs, appendices	tab.(42), fig.(5)

## 2. Seriousness of topics:

	above average	average	under average
* theoretical knowledges		x	
* input data and their processing		x	
* used methods		x	

## 3. Criteria of thesis classification

	stupeň hodnocení			
	excellent	very good	satisfactory	unsatisfactory
degree of aim of work fulfilment		x		
independence of student during process of thesis		x		
logical construction of work			x	
work with literature and citations			x	
adequacy of used methods		x		
design of work (text, graphs, tables)		x		
stylistic level		x		

## 4. Usefulness of the thesis outcomes:

under average      average

## 5. Comments and questions to answer:

*Theoretical part is based on a low number of literature. Construction of theoretical part is too general. Q1: Which objective method could be used for the diagnostic of knee ligaments lesions? Why the fixation of distended segment is so necessary in acute state and how long is the fixation usually indicated?*

6. Recommendation for defence:

ANO	NE
-----	----

7. Designed classificatory degree

very good
