

Abstract

Title:

Personal and Pedagogic Assistance Options in Micro Region Novobydžovsko

Objective:

To survey the institutions which tender the personal and pedagogic assistance in micro region Novobydžovsko and their lay-out in the mentioned area. To list the micro region requirements demanded from a personal and pedagogic assistant.

Methods:

Self-created questionnaire, interviews with the personal assistance institutions leaders, study of the available organizations documents.

Results:

The work surveys not only the educational and social work institutions in micro region Novobydžovsko, but also the personal and pedagogic assistance demand and the necessities for working in the mentioned institutions. The work notices problems with providing these services in the micro region, too. The main troubles are assistants financing, the lack of expectants and professional qualification.

Key words:

Personal and pedagogic assistance, micro region *Novobydžovsko*, disabled person
