

The first theoretical part of my bachelor thesis is devoted to the history, characteristics and to the organization of the children's summer camp. Particular attention is also paid to the personality of a group's leader. The following section presents the program content of the children's camp and the creation of the whole camp's challenge game. The practical part of the dissertation is focused on the specific whole camp's challenge game "Romance of mafia", which was realized in Janovičky in 2009. The work's priority is to approach and outline entire activity on the camp and accordingly to point out all the necessary aspects of the precise camp's holding.
