

ABSTRACT

Title: Job competency of triathlon coach

Author: Lukáš Rezek

Objectives: Define the term carrier competence on the basis of literature overview with the respect to specifics of triathlon.

Methodology: I will search for definitions and concepts using the literature review and the internet. From the searched definitions and concepts I will create the theoretical framework of knowledge suitable for future practical measurements. Practical measurements will take place in the form of qualitative research.

Results: The result will suggest competencies and their monitoring.

Key words: coach, triathlon, coaching profession, job competency.
