

ABSTRACT

Heading: Utilization of ZOO Dvůr Králové in Education

This thesis deals with the educational function of zoos and capacity utilization of the ZOO Dvůr Králové nad Labem in ethological fieldwork.

The thesis results into a summary of theoretical knowledge concerning zoological gardens and their educational function supplemented by the results of questionnaire survey detecting the concept of perception of education in the Czech and foreign zoos.

Further result of this thesis is a set-out of full-scale materials for ethological fieldwork including introductory lecture, worksheets and methodological manuals for teachers.

Key words: fieldwork, zoological garden, educational program, worksheet
