Průběh obhajoby:

The chair of the defense committee welcomed the auditorium, briefly introduced the candidate and the title of the thesis, and stated that all members of the defense committee are present and that all conditions for the defense required by the UK Study bylaws are fulfilled. The supervisor of the student, Prof. Andreas Ortmann, introduced the candidate to the auditorium and his academic activity up to date. The student presented the key insights from his dissertation work and also satisfactorily replied on several comments made by the defense committee. After that, the student commented on the reports of the opponents and explained how he addressed these comments in the latest version of the thesis. Following that, the chair of the defense committee invited the auditorium to express their comments and questions. After a short discussion, the chair concluded the defense session and withdrew with the rest of the defense committee to a non-public meeting. The defense committee consensually made decision that Mr Michal Mravec successfully defended his thesis. Finally, the chair informed the candidate and the auditorium about this outcome.
