

Abstract

Diploma thesis on the topic „Academic libraries of the private universities in the Czech Republic“ deals with libraries of the private universities. An introduction into the issue containing history, present, good and bad points of the private universities is mentioned at the beginning. Another part of the work contains information about associations and corporations where the universities are involved in. Foreign private universities and their libraries are also mentioned for better overview. The work describes particular law documents relating to library activities (libraries in general as well as academical libraries). The main part of the thesis is the review of schools and their libraries. The end of the thesis there is a comparison with one public university and one private university and their libraries.

Keywords of the thesis: academical libraries, libraries of the universities, private universities, private colleges, history of the private schools or universities, problems of the private school or universities, financing of the private schools.
