

TITLE:

Assessment Centre

SUMMARY:

The thesis is concerned with techniques of a personnel selection, that is called the “Assessment Centre”, and adverts to possibilities of usage of the Experience pedagogy in the process of the personnel selection both in general and concretely in respect to techniques of the “Assessment Centre”. The thesis in its practical part covers the implementation of techniques of the “Assessment Centre” in a particular company which select an employee for a position of a manager of GO parking business. The thesis in its research part primarily describes process of the recruitment in question and covers in details all techniques and activities, on the basis of which the recruitment in question was carried out, and subsequently the thesis explains why the applied techniques and activities were selected.
