

ABSTRACT

Title of the diploma work:

European union - sport university selection possibilities from middle European's point of view

Objectives:

Presenting and analyzing selection possibilities of sport university in European union and find out actual trends in program offers.

Method:

Quantitative data acquiring and research

- Analysis of documents, written materials, documentary sources and internet web pages
- Questioning to position (Question form)
- Comparison
- Content analysis

Results:

We have made following conclusion from acquired data: It is necessary to pass entry examinations in most of European universities and they are influenced by numerus clausus system. Sport study offer is fully sufficient. The field of study „health and fitness“ is the most attended study program. Suitable schools to attend are Charles University in Prague, University of West Bohemia in Pilsen, University of South Bohemia in České Budějovice in Czech republic and University Jyväskylä, Manchester Metropolitan University, University of Birmingham and University of Amsterdam in European union.
