In the first part conceivable interpretation of the term, which is written more serious and argumentative tone, we view the horizon in several stops, which are based primarily on theories of art and Philosophy and carry the wave of post-modern methodology in style Umberto Eco.

Didactic of DP indicates possible use as a theme for the term hours of art education, two of these ideas were implemented at Red Hill Primary School and are further detailed. In the end I tried to enter into a theoretical problem and evaluate show some benefits for my work.

The practical part of the thesis is a series of paintings and drawings incurred in the last five years, and bear in themselves the poetic approach horitontu on a line that clearly separates our sometimes mundane lived world and spirituality, and sometimes disappear again behind a tangle of "objects" in which the But still somehow present.
