

## **Abstract**

This work deals with suggested possibilities of cooperation between regional institutions and Elementary School Miloše Šolleho Kouřim, Kolín District in utilization of educational potential of local cultural heritage. Theoretical part firstly goes in an overview of regional literature about Kouřim and used pedagogical literature. Then follows brief history of settlement in Kouřim from origins through its prime as royal town up to its decline with emphasis on its dominants, which decorate the town until now. First part of the work is closed by chapter Pedagogical outlets, which presents five major topics for creation of historical walks.

Practical part of the master's thesis presents three concrete walks, which took place in the autumn of 2010 in cooperation with Elementary School Miloše Šolleho Kouřim, Kolín District and Regional museum of Kolín, respectively with regional office in Kouřim. Corresponding chapters concern preparation, realization and valuation of assessed walks and their potential for further utilization not only for Elementary School Miloše Šolleho Kouřim, Kolín District, but also by other elementary schools from nearby and faraway as well. .
